

**CLAIMS**

What is claimed is:

- 1        A method for at least one player and a dealer to play a card game with a  
5        plurality of cards comprising the steps of:  
         sequentially dealing a first card to each player and a first card to the dealer;  
         sequentially dealing a second card to each player and a second card to the  
         dealer; and  
         dealing additional cards to each of the at least one player and the dealer.  
10       selecting to receive additional cards, wherein the winner is one with the hand  
         closest to 31 without exceeding 31.
2.       The method according to claim 1, further including the step of receiving a  
         selection from each player as to whether to participate in the game.
- 15       3.       The method according to claim 2, wherein said receiving step includes  
         receiving from each player a bet.
4.       The method according to claim 1, further including the step of splitting the  
20       cards dealt to the player.
5.       The method according to claim 1, further including the step of doubling down  
         on the cards dealt to the player.
- 25       6.       A casino card game comprising cards that are dealt to a player such that the  
         object of the game is to obtain a card combination as close to 31 without going over  
         31.
7.       The game according to claim 6, wherein the game is won if a player has a  
30       card combination equal to 14.
8.       The game according to claim 6, wherein the game includes at least one player  
         and a dealer.

9. The game according to claim 8, wherein said player is playing against said dealer.

10. The game according to claim 6, further including a payout.

5
